Work Experience

Course Instructor - Hacktiv8   Oct 2022 - Now

With a passion for teaching, I guide students through our Full-Stack Javascript and Full-Time Data Science programs, providing them with the skills they need to excel in the tech industry. In addition to teaching, I have also contributed to the optimization of learning tools and assessment tools for our academic team at Hacktiv8.

Tech Stack: Javascript, Python, NodeJS, React, React Native, PostgreSQL, MongoDB

Back-end Developer - Flip.id   Apr 2022 - Oct 2022

Actively participated in the development and implementation of Promo Engine feature. This feature revolutionized the way Flip's users interacted with promotions, resulting in increased user engagement and customer satisfaction. Additionally, I also contributed in the development of a new feature for Water Bill payments by collaborating with cross-functional teams to create a seamless and user-friendly payment solution.

Tech Stack: PHP, Golang, Yii, PostgreSQL, Docker

Software Developer- Agrego.id   Sept 2019 - Sept 2022

Played a key role in the development and publication of Agrego Commerce and Agrego Seller apps on the Play Store. Additionally, I contributed to the success of the company by assisting the back-end team in developing APIs for the marketplace. My expertise in app development and API integration has allowed me to make significant contributions to the growth and success of Agrego.

Tech Stack: Java, Kotlin, Golang, PostgreSQL, Android

Full-stack Developer - iGrow.asia   Aug 2021 - Jan 2022

Helped enhancing the company's Admin platform in align with their new version web platform. I collaborated closely with the development team to identify areas of improvement and implemented innovative solutions to enhance the functionality and user experience of iGrow's Admin platform. I utilized my expertise in both front-end and back-end technologies to develop and deploy new features, ensuring seamless integration with the existing system.

**Tech Stack**: PHP, Javascript, Laravel, React, PostgreSQL
